

You sent the quote. Who calls the buyer back?

An AI sales employee that calls IndiaMART, website and trade enquiries within a minute. It confirms product, quantity, pin code and GST details, follows up every quotation on set days, and passes negotiation to your sales head.

HOW IT WORKS

1

We learn your business

Your products, MOQs, pack sizes, delivery areas, GST rules, and what must always go to your sales head.

2

We set it up

Wired to your IndiaMART Lead Manager export or CRM, your price list, sheet and WhatsApp. You test it before any buyer talks to it.

3

We run it

We read the call logs, fix what it gets wrong, and every call is logged with notes for your sales head.

WHAT IT WILL AND WON'T DO

- ✓ Calls only buyers who enquired. No cold calls, no bought lists.
- ✓ Tells callers it is an AI at the start of every call, and announces recording.
- ✓ Answers from your approved price list, MOQ and delivery rules. Never negotiates.
- ✓ Buyer data handled under the DPDP Act, deleted on request.

PRICE

₹22,500 / month

Plus a one-time setup of ₹50,000. 2,000 minutes included, then ₹8 a minute. No GST charged.

For comparison, a telecaller in Delhi costs ₹15,000 to ₹25,000 a month and works about 208 hours. Enquiries arrive across all 720.

WHY QUOTES GO QUIET

The quote lands next to four others

A quotation sent at the end of the day is opened the next morning beside several more. The first seller to answer a question usually gets the order.

From our IndiaMART quote follow-up guide

Small doubts stall orders

A lower MOQ, a different pack size, delivery to another state, a GST invoice in the company name. Each one waits in an inbox for days.

From our IndiaMART quote follow-up guide

Buyers compare with the market

In Delhi NCR they check Sadar Bazar, Chandni Chowk and Bhagirath Palace prices. Your caller should know your delivery and GST advantages.

From our Delhi NCR notes for sellers

Hear an AI sales call before you decide.
